

Notes on USA Test Prep website

Games

Head of the Class is a good review game.

Alpine Climber is a good review game.

The Super Graduation Kombat Smackdown game is not good for us at this time because it asks questions from other areas, not just math. We need to stress to the kids that the math is the most important thing right now.

Diagnostic Practice Tests

Tell the kids to ignore the Diagnostic Practice Tests for now because we will be using them in class on the last day as a Post-Test.

Other Activities

Under each Domain, tell the kids to focus on the Question Activities instead of the other activities. The Crossword Puzzles or Word Find Puzzles might be fun, but not the best use of their time. If math terminology seems to be an issue, the Vocabulary Activities (10 Random words) might be okay to do.
