EAP FOR FAMILIES

HENRY COUNTY SCHOOLS IS PROUD TO OFFER THE
EMPLOYEE ASSISTANCE PROGRAM

Henry County Schools believes the health and well-being of our employees is of critical importance and offers comprehensive **Employee Assistance Program (EAP)** services to our full-time/benefit-eligible employees and their families. We partner with Espyr, an independent firm, to provide this service.

The **EAP** offers many services to employees including:

- Face-to-face and telephone access to a network of professional counselors for personal, family, and work concerns
- Work/Life services including no-cost consultations with attorneys, financial professionals, child and eldercare services specialists, and others
- A large variety of on-line resources and programs
- No-cost counseling and referral services
- 24/7/365 access to services

The EAP staff and counselors include psychologists, clinical social workers, marriage and family counselors, alcohol and drug counselors, attorneys, financial advisors, and other licensed professionals. **The EAP program is free and completely confidential.**

We invite you to visit Henry County Schools' EAP website at www.espyr.com. Enter **SOG2015** as your password. The website is an easy to use resource available to help you and your family.

Our goal for the EAP is to ensure you have the professional assistance necessary to help you handle different personal matters in a confidential manner.

To take advantage of the EAP, contact Espyr by calling **855-584-3855**, or you may securely request services from the website. While the HCS Human Resource Services Division is pleased to promote this program, please contact the EAP directly for assistance with services.
